Fiscal Analysis

ASSUMPTIONS:
Judicial Branch

1. This bill creates a new crime of obstructing health care facility access. These cases would be tried in Courts of Limited Jurisdictions as misdemeanors, however appeals of these cases would be heard in District Courts. The legislation may increase District Court caseloads but the Judicial Branch is unable to estimate the impact on judicial workload or the fiscal impact. The cumulative impact of such legislation may over a period of time require additional judicial resources since the court dockets are already full throughout the state.
